The power of storytelling for Medical Humanities

CLS Tools and methods

## Integrated and ethical medicine is complex.

How do therapists and medical practitioners characterise the experience of illness, explore the ethical dimensions of medical processes, and help patients understand, connect and cope?

Example: Mind Style and cognition

Mind Style: algorithmically analyse linguistic patterns to represent a 'mental self' or 'world view'. Find resonances in attitudes and cognitive processing in fiction or autobiography.

Pillière, L. (2013). 'Mind Style: Deviance from the Norm?' , *Studies in English Stylistics*.

Socio-cultural context → Addressee

MIND STYLE

Individual cognitive state

CLS INFRA has identified ways to use literature in policy making based on interviews with policy makers.
